

gym2gym

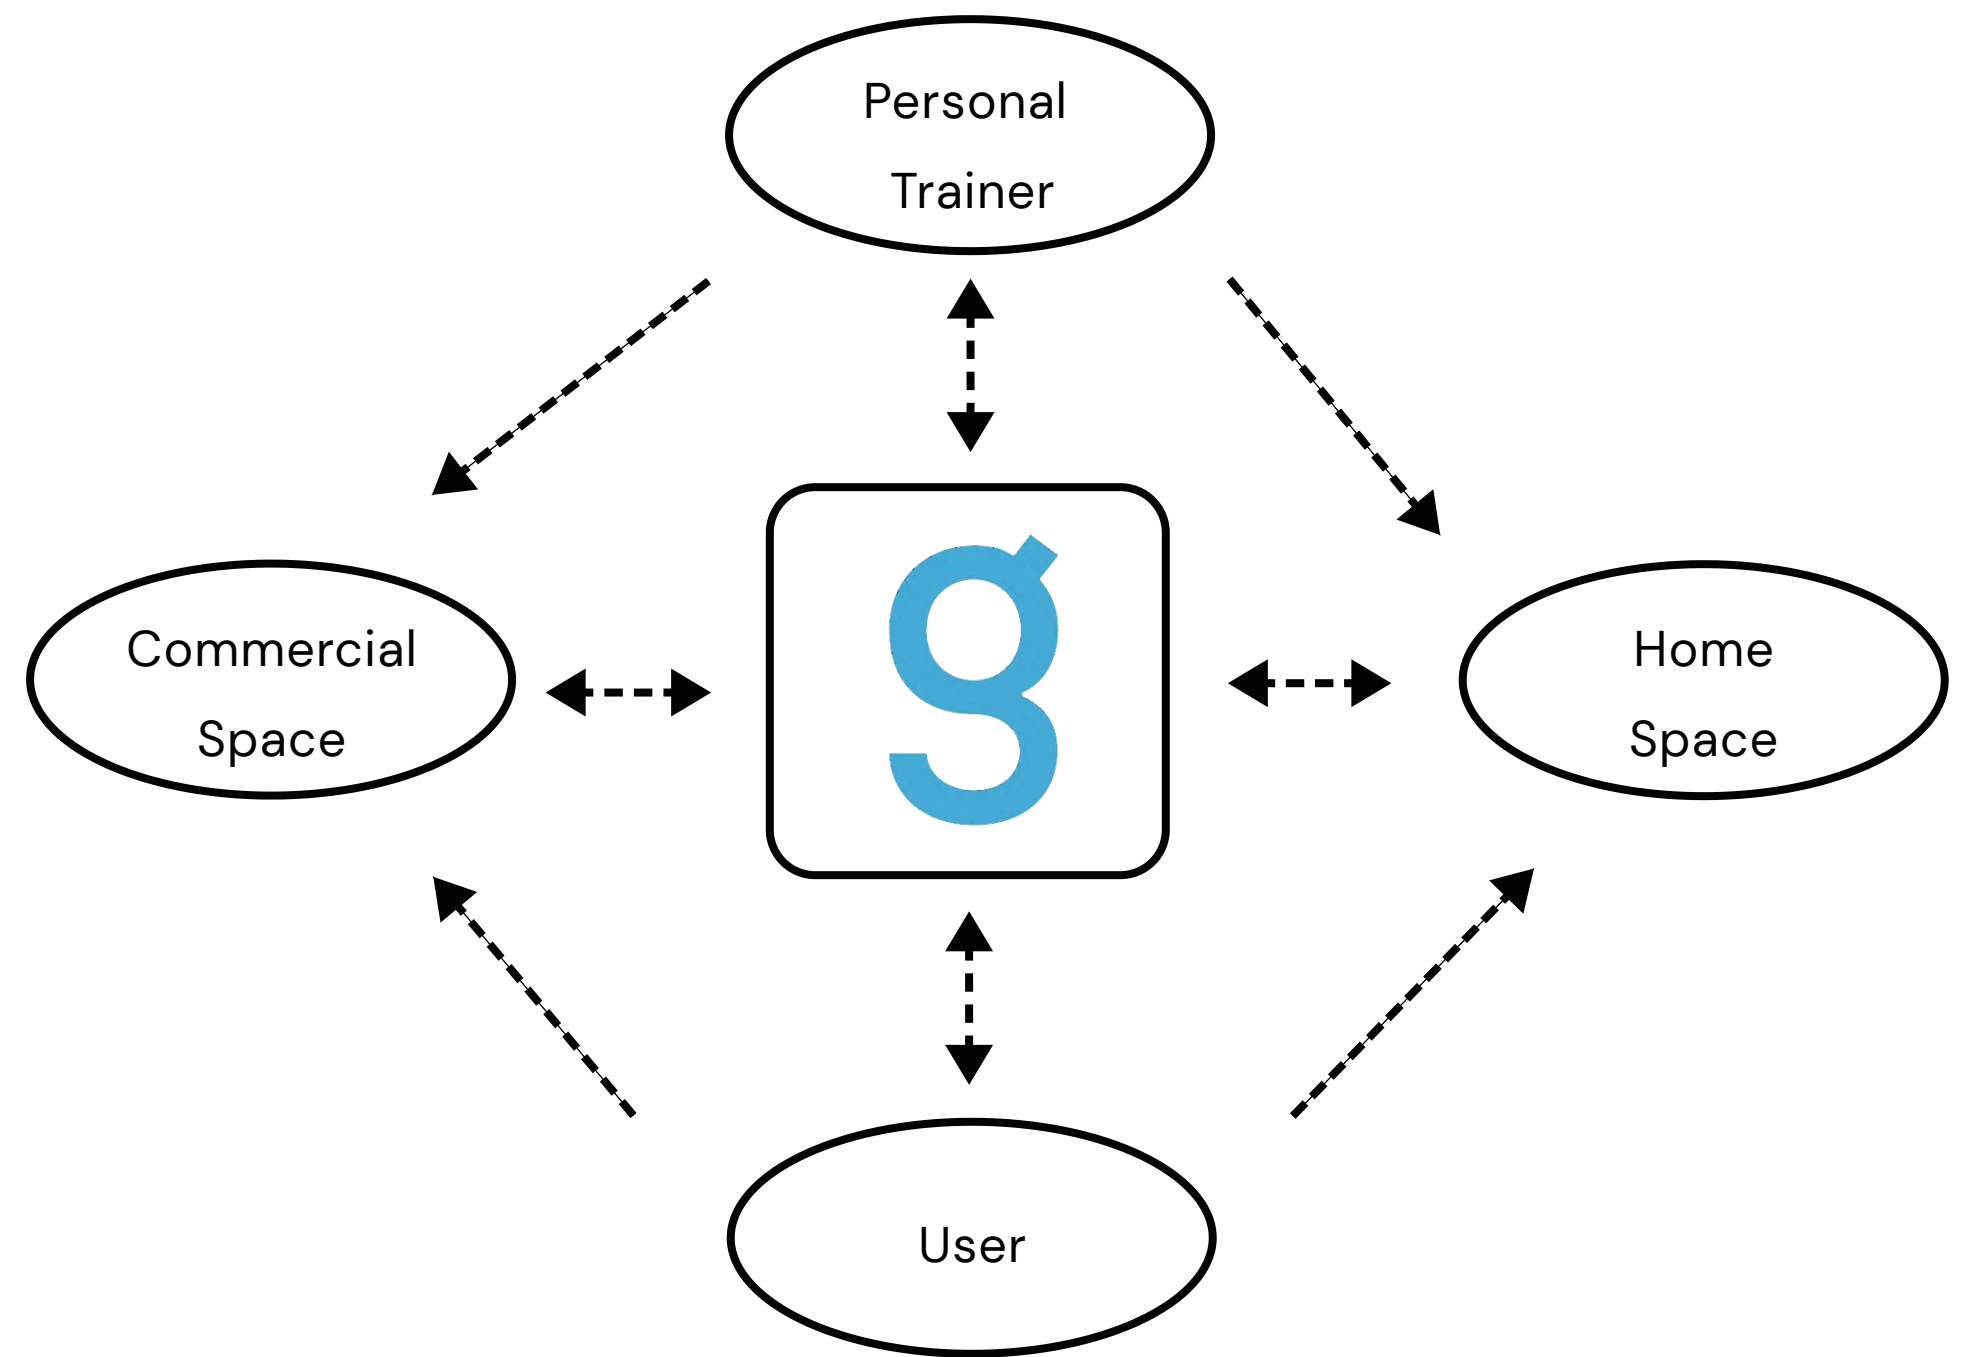

01

Company overview

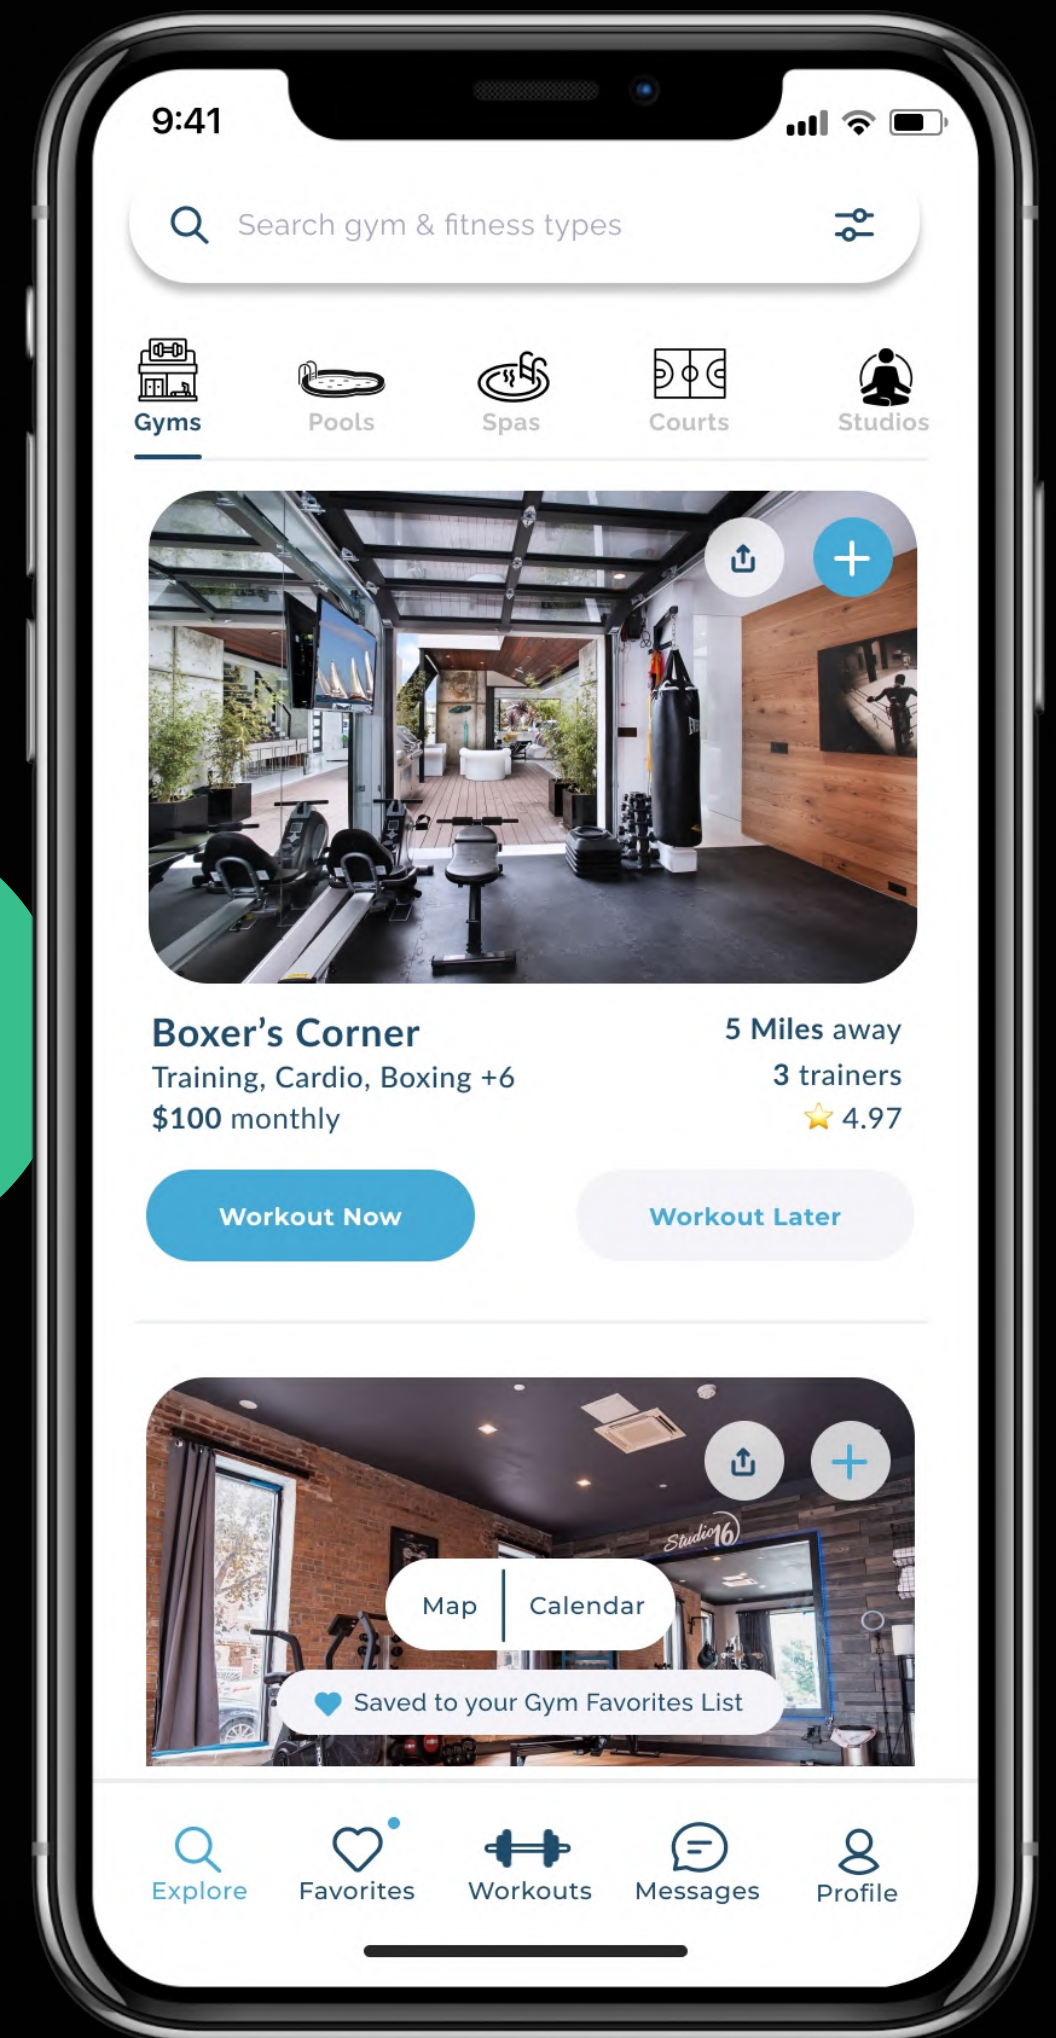

An online marketplace for fitness enthusiasts, privately owned gyms and wellness spaces, and personal trainers.

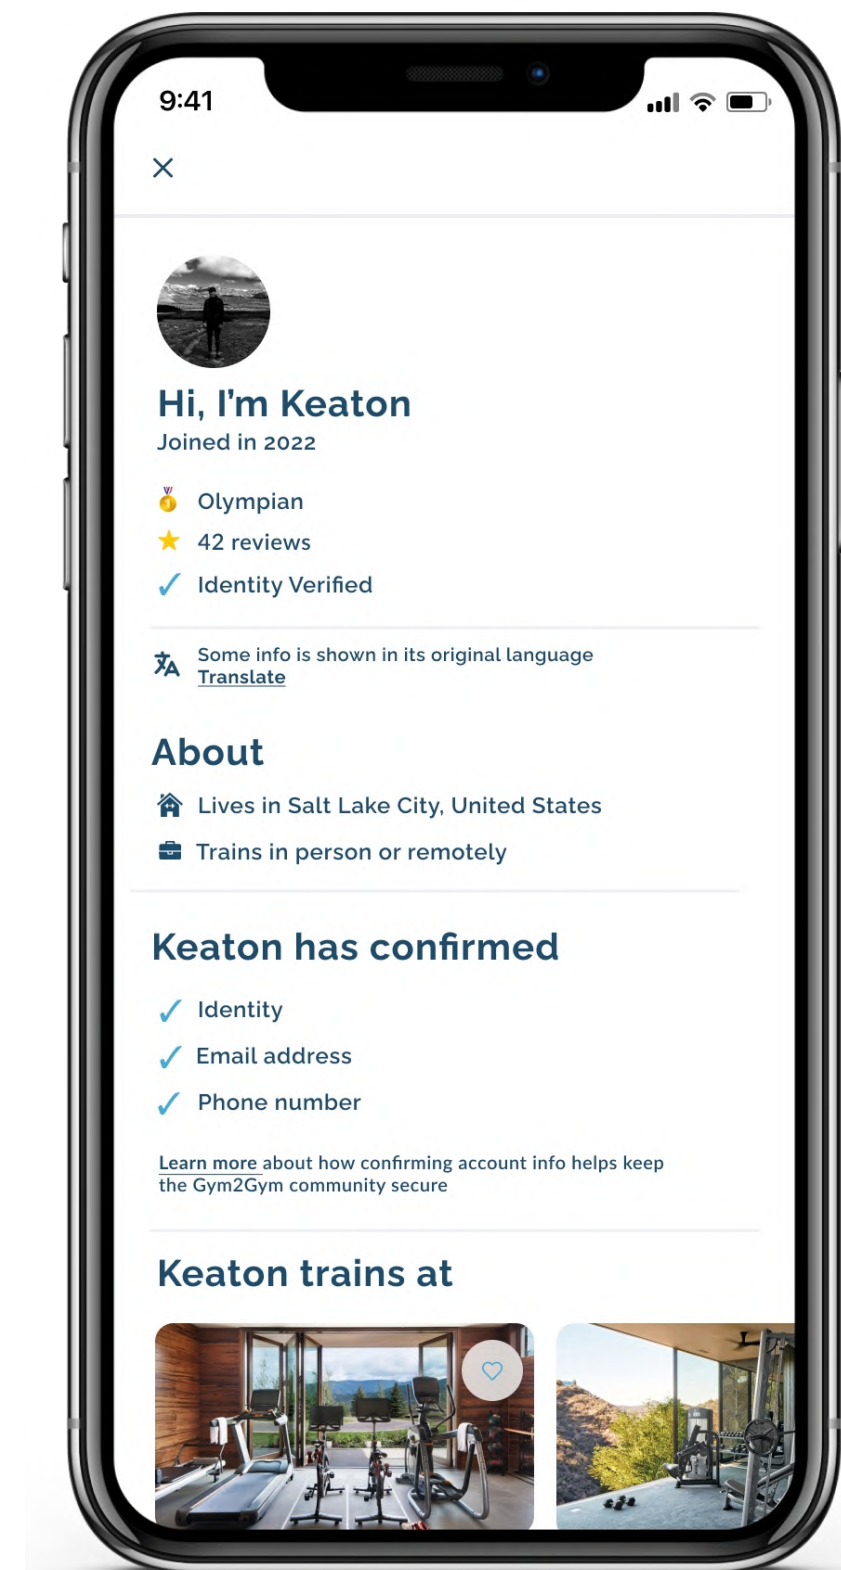

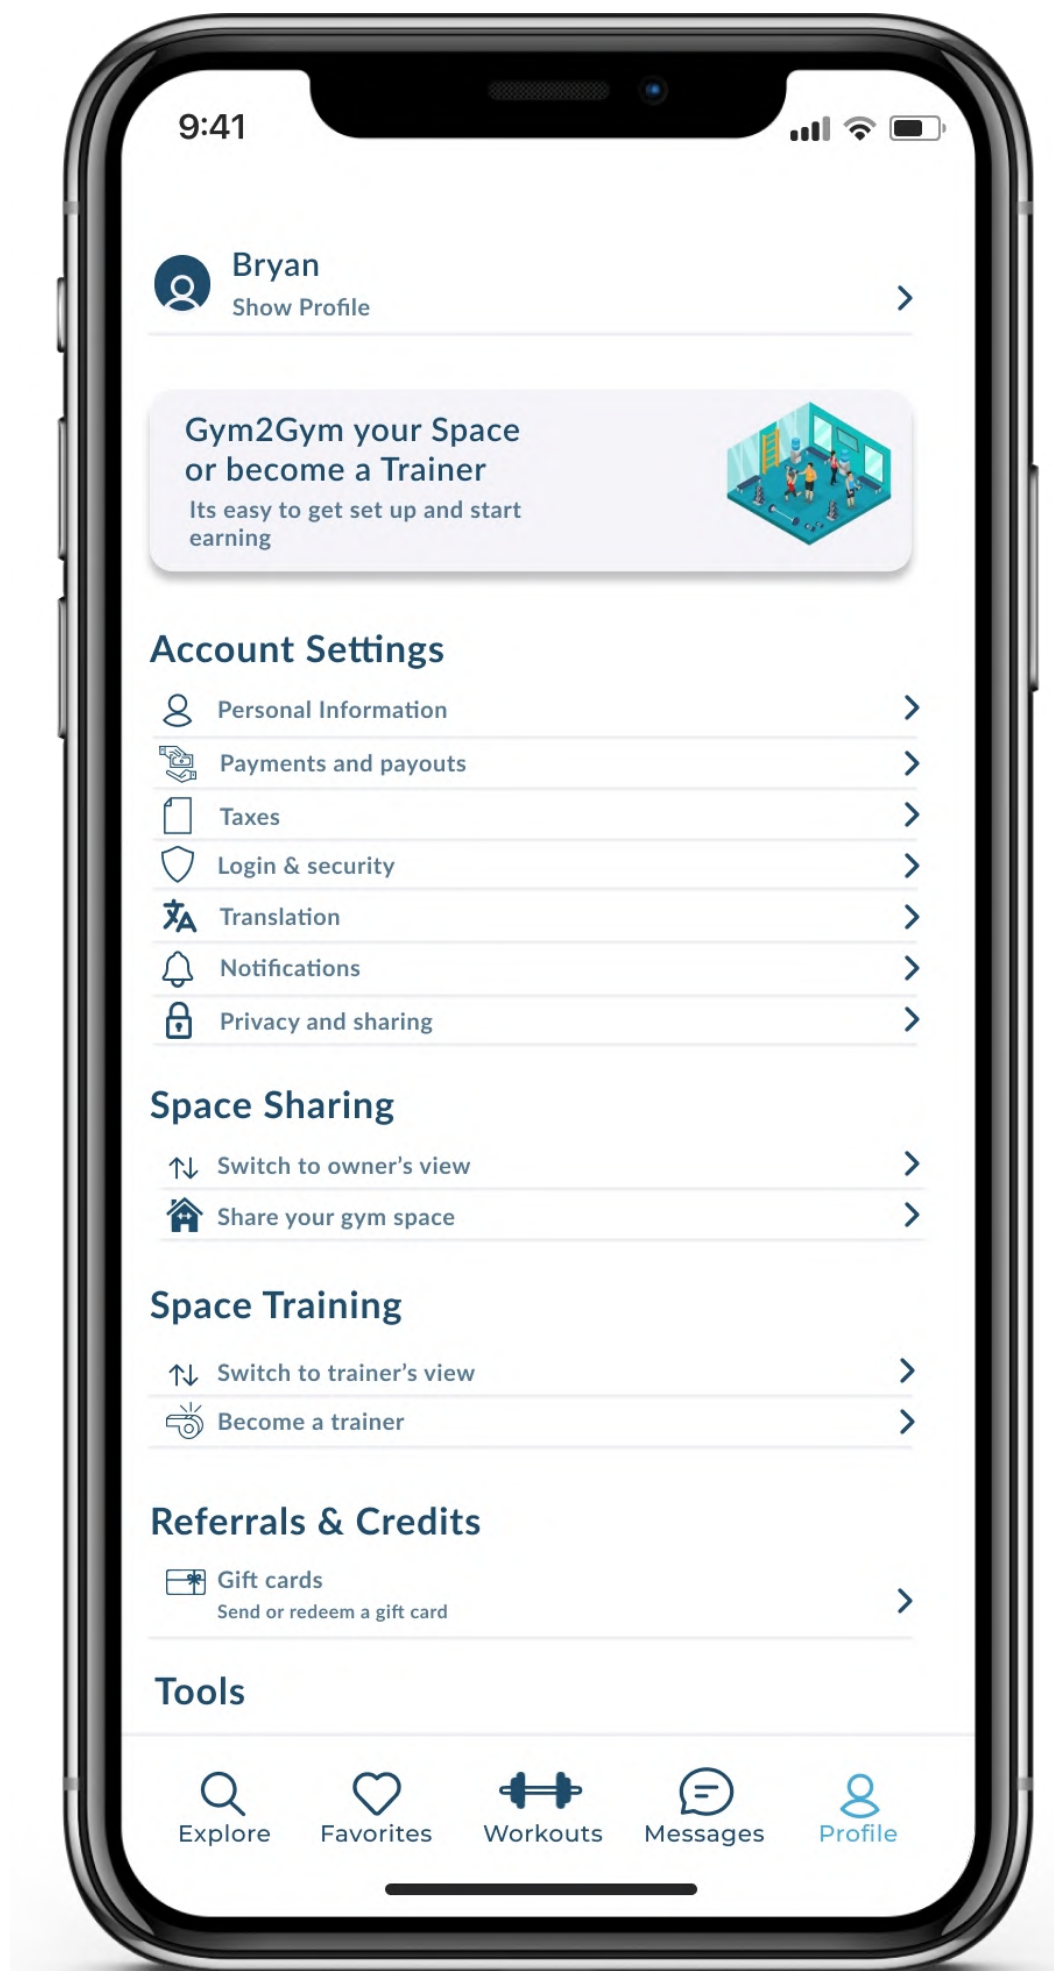

- Gym2Gym provides users with access to home gyms, privately owned facilities and other fitness spaces.
- Users pay for what they use, and owners profit from one-off transactions during downtime or new revenue streams.
- Personal trainers also gain new clients and solve their main pain point: finding a space to work.

A platform and marketplace that enables people to have private fitness experiences.

02

Gym Owners

Opportunity

Commercial:

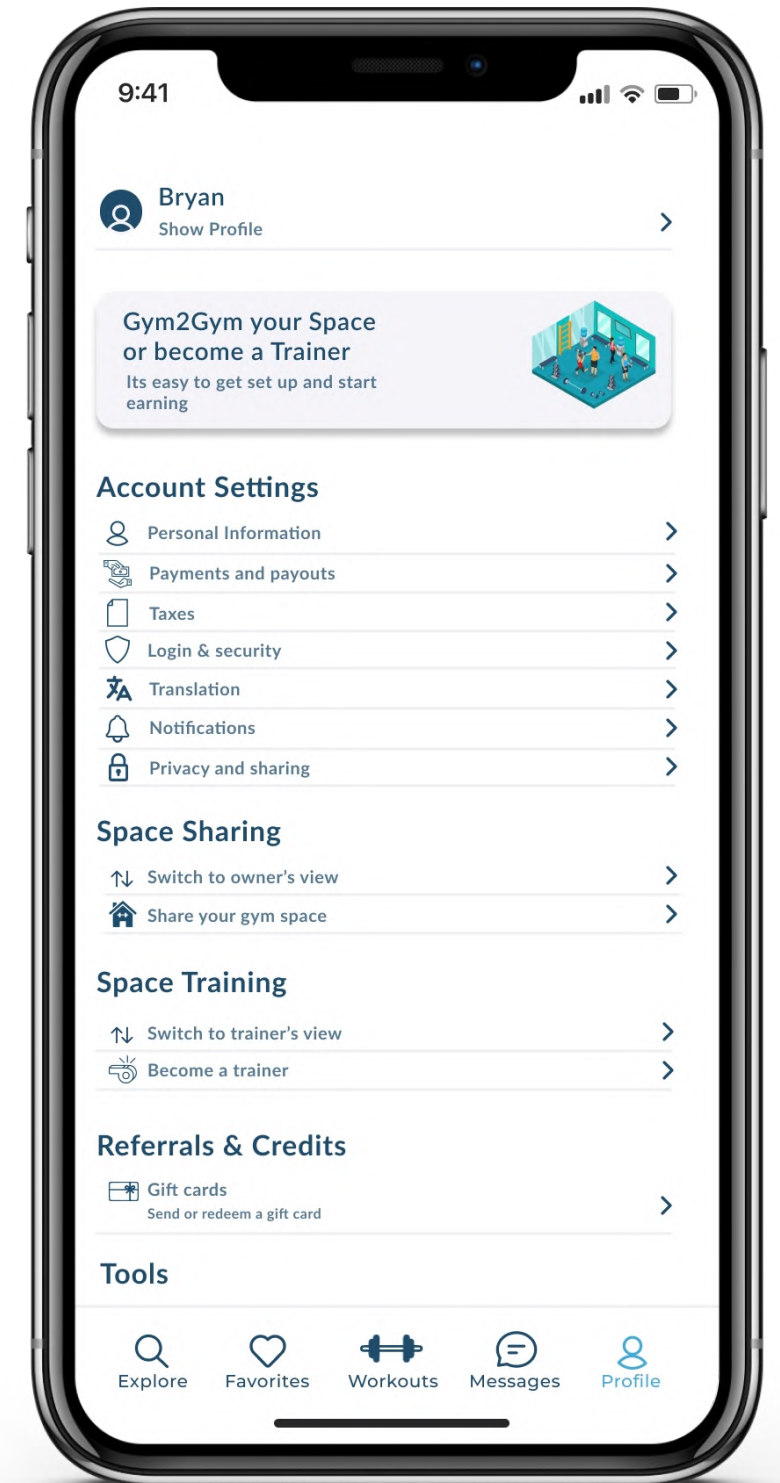

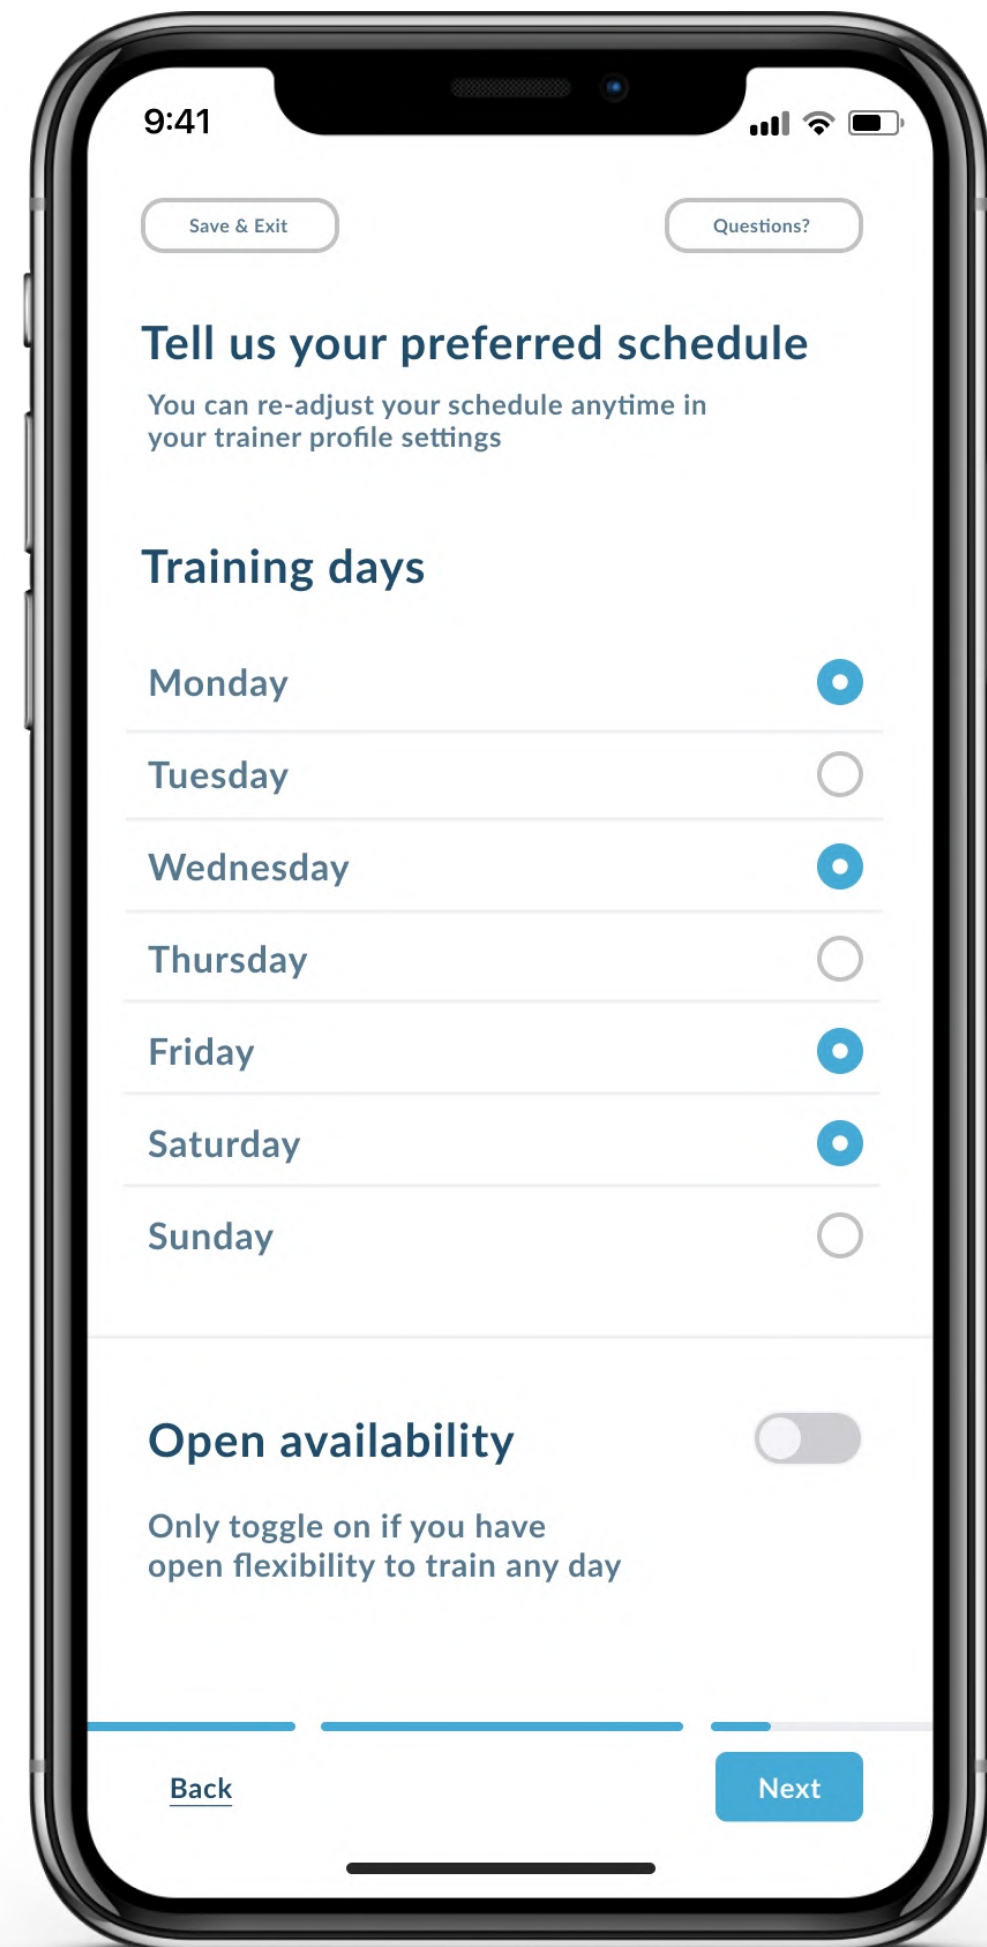

- Privately owned, commercial gyms can now benefit from new clients and revenue streams
- Fill low traffic gym hours
- Be featured on platform as an early adopter
- Have access to our marketing channels and users

At-home:

- Private home owners can turn their gyms into small businesses
- Gym2Gym will provide a how to guide, manage all transactions and promotion of space

03

Personal Trainers

Opportunity

Never look for space again:

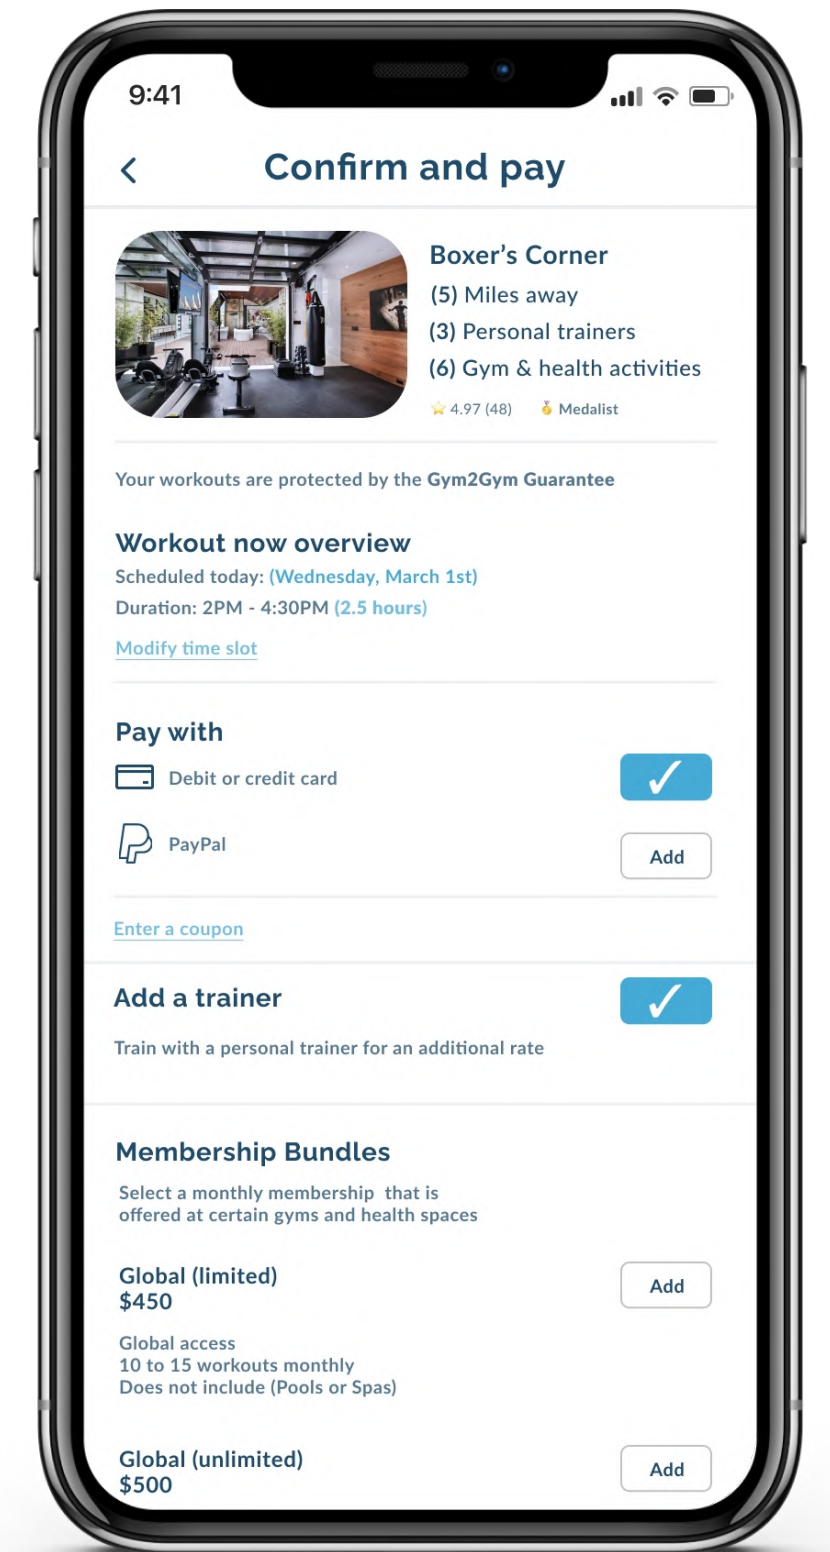

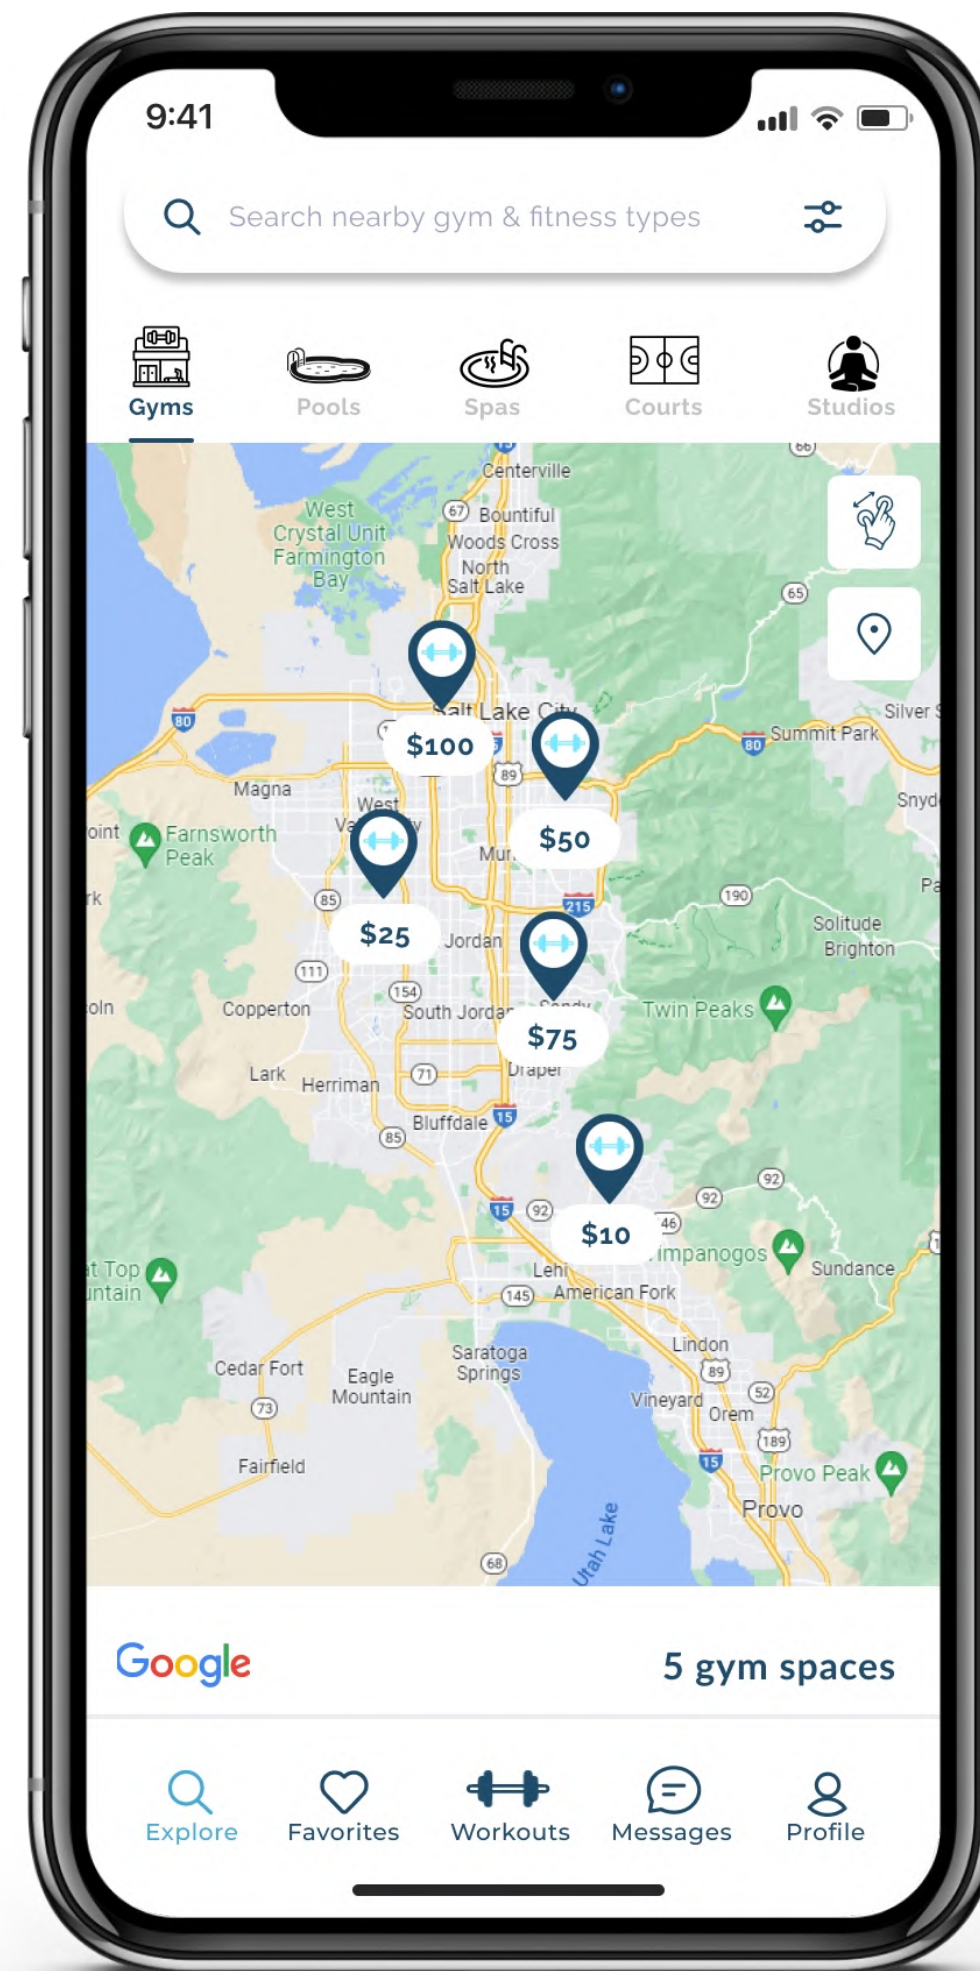

- With Gym2Gym, you no longer have to search for spaces to work out with clients
- Every request will have a space attached

New clients:

- As an early member on platform, you will be featured when people add a trainer to their workout
- Access to Gym2Gym users and new clients

03

Fitness Enthusiasts

Opportunity

Your personal gym (fitness) everywhere:

- For a low price point, you can have access to private gyms in your area for daily, occasional or travel related fitness experiences
- Add a personal trainer to any workout
- Pay how you want to
 - Gym2Gym offers pay by consumption and membership model to fit your lifestyle
- Earn rewards by being an early user
